

Fastroi
-
The Network of Care

The Network of Care

Fastroi Real-Time Care™ now features a secure messaging service for family members. The service is also available as a mobile application.

 The Network of Care messaging service facilitates communication between nursing staff and the client's family members.

 Family members can use the calendar feature to easily display and keep up-to-date on the daily schedule and programme of their loved one.

SECURE FAMILY MEMBER MESSAGING

1. Transparent operations improve the quality of care.
2. Family Member Messaging saves time, as it reduces the need for phone calls and leaves more time for actual care work.
3. The new communications channel replaces the notebooks used in home care.

HOW DO I START USING THE NETWORK OF CARE?

FASTROI CLIENTS

The service is available to Fastroi Real-Time Care™ users for an additional fee. You will find the service easy to use, and Fastroi will provide assistance with getting started.

FAMILY MEMBERS

Family members can start using the service on the www.networkofcare.co.uk website once an agreement has been signed with the nursing care provider.

Family members can log in to the service with a phone number and monthly changing PIN code, using either a browser or a mobile application. Our service is available for Android and iOS devices.

”

The software is simple to start to use, it is easy to use and customer support is excellent.”
